Welcome Message

It is with great pleasure that we announce our annual conference, MUSKCON 2024, scheduled to be held on the 16th and 17th of March 2024 at Bengaluru.

The highlights of this year's conference include TWO unique workshops:

A. Live demonstration of **Fetal Anatomy Beyond TIFFA**. This would entail technique and sections needed in studying structures such as the optic chiasma, optic nerve sheath, conus medullaris, secondary palate, pharyngolarynx, trachea-esophagus, ears and many more regions. The clinical circumstances which prompt such a study will also be discussed.

B. A workshop featuring **Niche Genetic Abnormalities** such as those of gene imprinting, RASopathies, ciliopathies in addition to description of testing techniques. Each of these areas will be dealt in terms of basic concept, genetics and case example with discussion.

In addition, we have curated topics in fetal medicine and gynecology which are of practical use. We have a galaxy of national speakers with years of practice and experience to address these topics.

Come, be a part of this academic extravaganza - MUSKCON 2024.
